## THE HAND WE'VE BEEN DEALT.

### *THE LOCAL HISTORY.*

The San Luis Obispo region is well-known for its many winery and vineyards. However, the current market brings in an older demographic, often with more experience with wine and more money to spend on it.

We saw a gap in the market. Where were the opportunities for learning about wine? Where were the affordable options? And where we all of those combined in one beautiful, delivered package?

## LOOKING INTO THE FUTURE.

### *THE NEW IDEA.*

Say goodbye to awkward glances when the server expects you to name every note in the bottle of red they just poured. Say goodbye to standing in the grocery store, debating between two bottles of white whose names you don't understand.

The August wines brings wine-tasting to your home by letting you learn about and order all your new favorite wines online and have them shipped right to your door.
